

Manager's Briefing

What a month of excitement!! March brings an end to our temperate winter and welcomes the season of promise - spring. This month we celebrate St. Patrick's Day and Easter, cheer on our favorite NASCAR drivers at the Las Vegas Motor Speedway, root for our Final Four teams during March Madness and at Oasis Las Vegas RV Resort we celebrate that super fun tradition of Mardi Gras. If that's not enough, check out our activities calendar - you're sure to find something that tickles your fancy. A quick FYI - the evening of March 19th Oasis will be hosting a private party in the clubhouse that is apt to go late and may be a bit loud. Thought you should know. Please see the front desk if you feel this will be an issue for you and they will do their best to accommodate your wishes. Meantime, get out there and enjoy the best RV resort the valley has to offer. Thanks for being our guest and we wish you a very pleasant and memorable stay.

RV Tip

Your RV's beautiful woodwork needs special care in this low-humidity environment.

Wooden doors and cabinets should be oiled/waxed frequently to prevent the wood from drying out. Avoid using water-based waxes or polishes. Instead consider orange oil - it'll leave your wood gleaming and your rig smelling fresh!!

As We Go Sale-ing

Shop or participate in two great sale events this month. Our **Craft Fair** features unique hand/homemade wares and takes place **Saturday, March 12th** from 10am-2pm inside the clubhouse. Contact Jennifer at extension 2060 for further details. The **Yard Sale** happens on **Saturday the 26th** from 8am-1pm at the front and throughout the resort. See Tammy in the Hollywood Room to sign up. Happy sale-ing!!

Fit 'n Fun

We have enjoyed great success, new friends, fun and fitness at our new Fit 'n Fun with Friends gatherings. Our group - open to everyone whether you're here for the week or the season - trades recipes, ideas and encouragement for a fitter, trimmer you. So far our collective weight loss comes in at a fabulous 17 pounds!! Join your Fit'n Fun Oasis Las Vegas RV Resort friends in the Hollywood Room Thursday afternoons at 1pm and see what it's all about!!

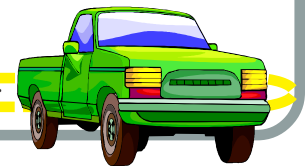

Beau-ti-ful

Perhaps you've noticed the spring-sprucing going on all around the resort. The putting greens are greening up, the trees are flowering and it's mowing season again. Our staff works extra hard to bring you the "wow" factor throughout the resort. That's commitment to our goal - continuous improvement. Please help us keep the "greenery" green by **not parking on the grass**. When you park on the grass you compromise our sprinkler system - often breaking a buried pipe that requires much work to repair. Thanks in advance for keeping your vehicle off the grass and enjoy the lush surroundings!!

Celebrate
RV Lifestyle Week
March 20-26th.
You're in a perfect spot!!

Please make sure your vehicle does not stick out on the resort roads when parked. If your site can not accommodate your rig *and* vehicle see the front desk for alternate parking options.

NASCAR Comes to Las Vegas

Enjoy the Busch Series' Sam's Town 300 on March 12th and the Nextel Cup Series' UAW-DaimlerChrysler 400 race on March 13th at the fabulous Las Vegas Motor Speedway. Located at 7000 Las Vegas Boulevard North - (702) 644-4443, the Las Vegas Motor Speedway has the distinction of being the first completely new superspeedway to be built in the southwest region of the United States in more than 20 years. The tri-oval track features a 1.5-mile superspeedway including 12 banking turns, a 2.5-mile FIA-approved road course, a 4,000-foot drag strip, paved and dirt short tracks, motocross circuits, stadium truck racing facilities, go-kart and Legends cars layouts as well as a Junior Drag racing strip.

Check out **Happy Hour** (the last official practice session held before an event - usually takes place the day before the race and after all qualifying and support races have been staged), get into the **Groove** (the best route around a racetrack; the most efficient or quickest way around the track for a particular driver - the "high groove" takes a car closer to the outside wall for most of a lap, while the "low groove" takes a car closer to the apron than the outside wall) and search for that **Downforce** (the air pressure traveling over the surfaces of a race vehicle creating a "downforce" or weight on that area - in order to increase corner speeds teams strive to create downforce that increases tire grip). Go team!!
